DATE PRODUCTION	25/03/2021 (evening)	

## 2. New features

### 2.1. Script 1B – Selection of the external prevention service

In script 1B, the selection of the external prevention service has been improved:

- External prevention service selection by the operator is now available in all cases
- The agent can now choose among the list of all External Prevention Services existing in the eHealth database
- An icon “eHealth Box with opt-in” or “opt-out” has been added in front of the External service name
- To find out if the ticket can be processed via the External Prevention Service eHealth box, the system check that it is encrypted.
  - The mention “eHealth box : secure / not secure” is visible in the wrap-up codes area.
- If the eHealth box is secure, then the wrap-up code will be available in the drop down list.

The screenshot shows a user interface for selecting an external prevention service. At the top, there is a section labeled "Collectivité" with a search bar containing several entries and a "+ Ajouter manuellement" button. Below this is a section labeled "Service externe de prévention" with a dropdown menu currently showing "MENSURA (0410664742)". At the bottom right, there are two checkboxes: "eHealthBox opt-in" (checked) and "eHealthBox opt-out" (unchecked).

- IDEWE (0409862612)
- SECUREX (0410664940)
- MENSURA (0410664742)
- LIANTIS (0409862018)
- PREMED (0410064629)
