- PROD : <https://portal.api.ehealth.fgov.be/>

2. Updated features

2.1. Code consultation: cleaned & free

The consultation of a code now specifies whether the prescription code is free and/or cleaned:

- **isFreeTest**: indicates if this test is a free test.
true means that the test is a free test requested by the citizen.
false or no value means that the test is NOT a free test requested by the citizen. It does NOT mean that the test is a paid test requested by the citizen.
- **cleaned**: indicates if this prescription code has been “cleaned” (most of the field have been removed from the database) because of legal reasons.
