Template version 1.1

TABLE OF CONTENT

1. Release

RELEASE NUMBER		
TYPE		URGENT
APPLICATION	Script & Forms	
VERSION		
DATE ACCEPTATION	23/02/2021	
DATE PRODUCTION	25/02/2021 (evening)	

2. New features

2.1. "2A from scratch" : 2 new fields added to achieve case management

2 new fields are added to the 2A script in order to be transmitted to Regions for case management:

- National registration number of index patient (`index_patient_ssin`)
- Cluster ID (`cluster_id`)

2.2. Script 1A: flag whereabout for case management

A series of changes have been made in the "event" section of script 1A to determine whether a "whereabout" should be marked as a "case management" and transmit the information in JSON exports to regions.

2.2.1. New flag in export to Regions

```
"case_management_cannot_list_contacts" : [ {
      "label" : "Feest",
      "authenticSourceName" : "SCRIPT_FORMS",
      "authenticSourceId" : 16110, "type" : "whereabout"
       } ],

"case_management_infected_presence" : [ {
      "label" : "Fitness Forma",
      "authenticSourceName" : "SCRIPT_FORMS",
      "authenticSourceId" : 16416,
      "type" : "whereabout"
      } ]
```

2.2.2. Event type update

- New type of private event : « Une activité avec un mouvement de jeunesse »
- all types of public events have been split up individually

2.2.3. Trigger for case management

If the agent adds a private event (all type) or for certain public events (with the following type "conference, trade fair, event, restaurant, café, fitness, sauna, wellness center, bed&breakfast, other), 2 new questions are added at the end of the form:

- Among the following events, which are the ones where you CANNOT list all the contacts present?
    - "Name of added event 1" → *if selected = flag this event as "CASE MANAGEMENT" and hide this event in question 2*
    - "Name of added event 2"
- For which of the following events is the index patient aware of the presence of other infected individuals?
    - Name of added event 2" → *if selected = flag this event as "CASE MANAGEMENT"*

○ Nee

Q7c Onpersoonlijke samenkomsten *

"Hebt u in dezelfde periode één van de volgende plaatsen bezocht ?

- Pretpark, natuurpark, dierenpark
- Bioscoop, theater, concertzaal
- Zwembad en speeltuin
- Museum, bibliotheek

- Restaurant, Café
- Markt, kermis
- Sauna, kapper, schoonheidssalon, massagesalon, tatoeage-salon, manicure-/pedicure-salon, wellness-centrum
- Hotel, Bed & Breakfast, camping, vakantie-verhuur
- Fitness
- Casino
- Overige

◉ Ja
○ Nee

Indien 'Ja', voor elk van de hierboven vermelde samenkomsten waarmee de persoon in contact kwam: formulier invullen. Zoek, indien mogelijk, het KBO-nummer van de plaats van samenkomst (zoals bijvoorbeeld een restaurant) op in de 'Collectivity Look-up Tool'.

[🔍 Zoek evenement]   [+ Nieuw evenement]

Q7d *"Van de volgende evenementen, welke zijn de evenementen waarbij u NIET alle aanwezige contacten kunt vermelden?"*

☑ Réunion scout
☐ Fête chez amis

Q7e *"Voor welke van de volgende evenementen is de indexpatiënt op de hoogte van de aanwezigheid van andere geïnfecteerde personen?"*

☐ Fête chez amis

[Opslaan als Concept]   Vorige   [**Volgende**]

2.3. Other changes

In the popup for creating/adding a new event:

- **Field "Name/description"** is spit into 2 distinct fields
- **Fields "Name of event", "Description of event", "Post Code"** are now mandatory
- Addition of the **address autocompletion library**

2.4. 1B ticket via eHealth Box version 1.2

Evolution of the functionality for sending 1B tickets via eHealth box / email:

- **"List of symptoms"** selected in 1A ticket is now included in the file attached to eHealth box and in the generated content for email
- "**Symptom start date"** selected in 1A ticket is now included in the file attached to eHealth box and in the generated content for email
- The operator can add **a comment** which will be included in the file attached to eHealth box and in the generated content for email
- **The contact email address** in the introduction of the message will be displayed according to the region
